

Project 1

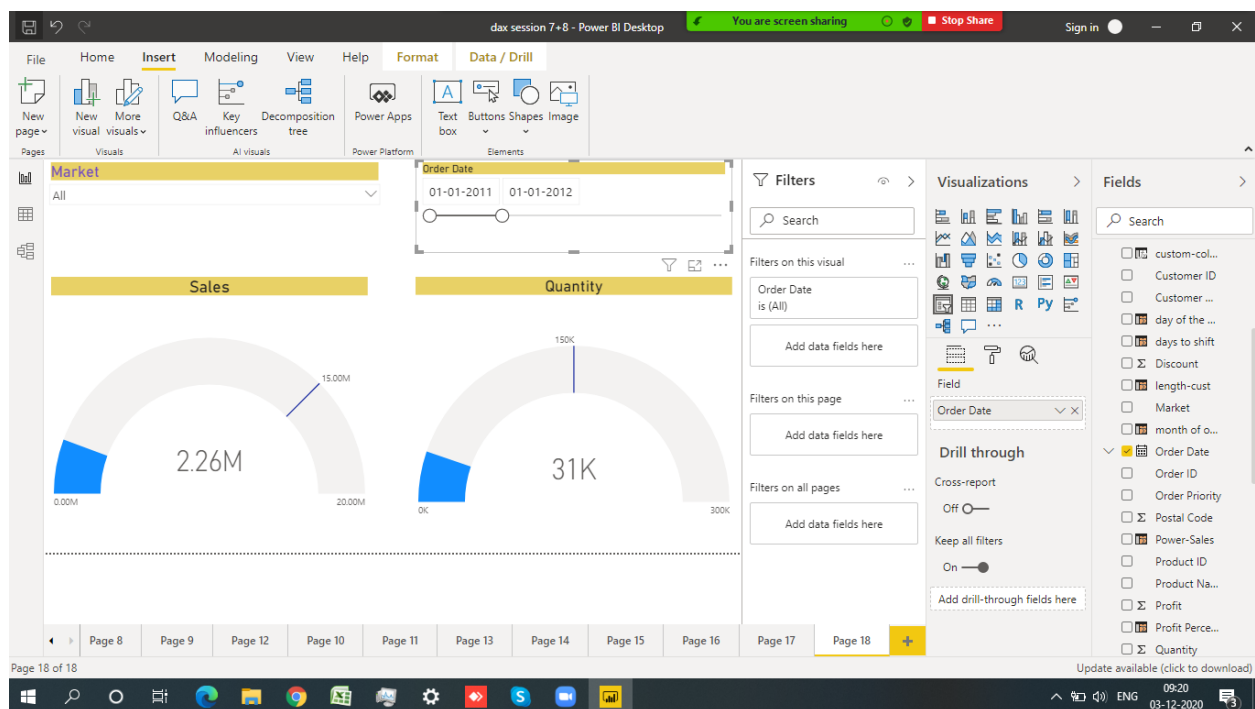

Use any one of the dataset from drive folder

1. HR Analytics
2. Budget and Sales Data

Design a report which consist of 5 pages

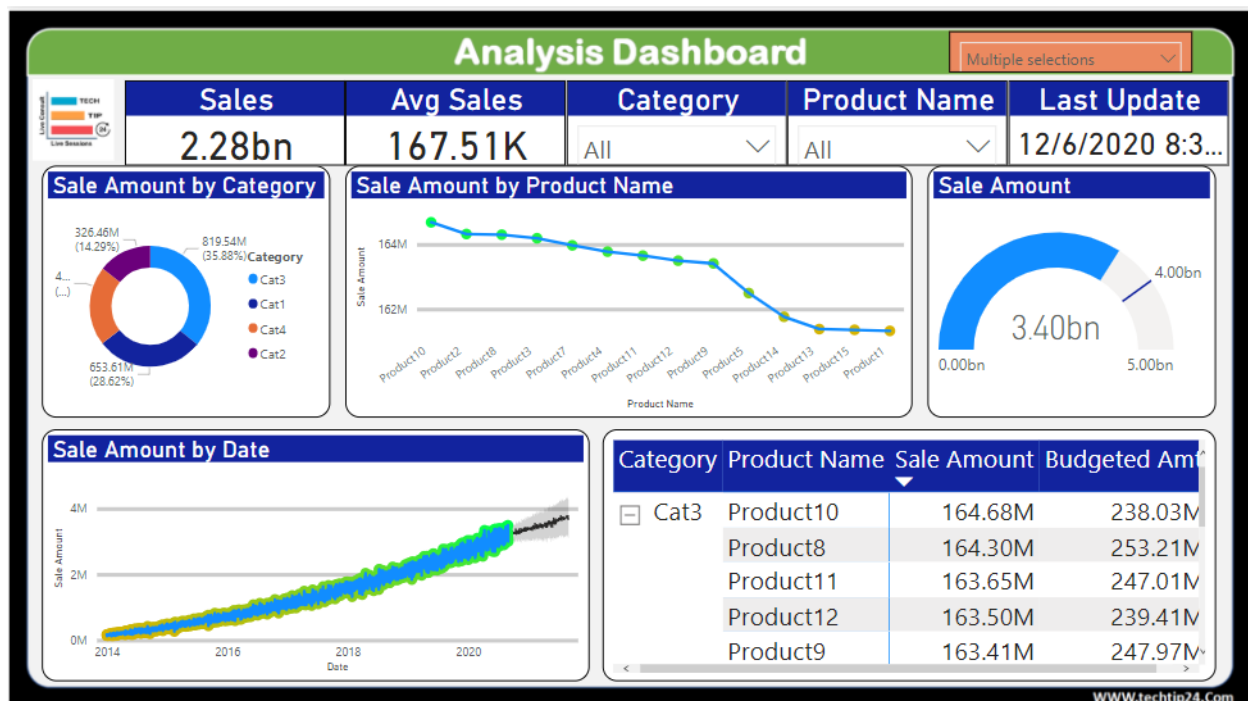

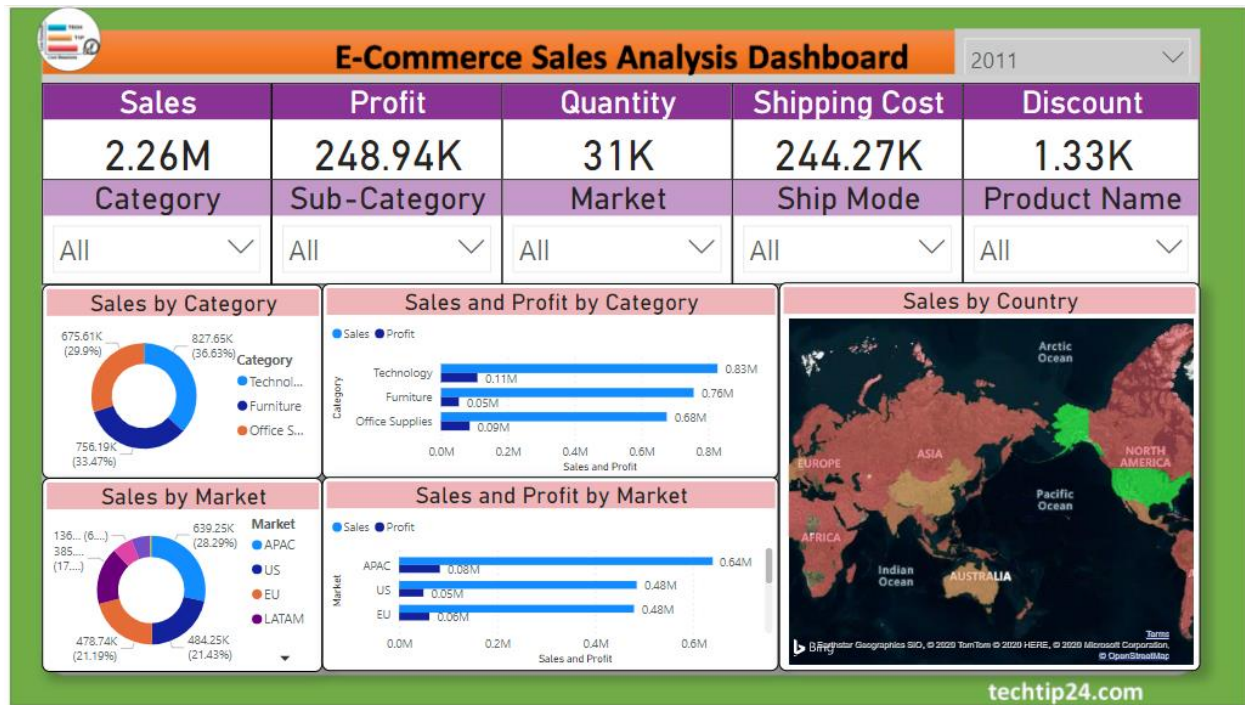

In first 4 pages – use 4 to 5 visuals in a single page, it must contain slicers, filters and cards.

Like This:-

In Last page - Design the dashboard which gives the overall performance of your data.

Sample of Dashboards:-

Project 2

You need to find the data as per your interest. <https://www.kaggle.com/datasets>

Paste the link of the dataset or send the dataset through mail.

After finding the same:-

4 pages – use 4 to 5 visuals in a single page, it must contains slicers, filters and cards.

Last page - Design the dashboard which gives the overall performance of your data.

Design a Dashboard on the top of Power BI Service:-

Use at least 7 visuals for the combined view of your research.

Like This:-

Project 3

Small video Presentation – 6 to 7 minutes (Sample Link - <https://youtu.be/J1uuUQ-DtxY>)

Where you need to explain everything whatever you did in project 1 and project 2.

Send the project at this email id – edu@techtip24.com

Make a single word document for project 1 and project 2.

Place the screenshots of all the pages and dashboards that you have made so far in both the projects. Send the Video in mp4 format.
